

JI LIURULIN

Ph.D. Student in Urban Development and Management | School of Public Affairs, Zhejiang University
Hangzhou, China | +86 150-6251-1697 | jiliurulin@zju.edu.cn | jiliurulin@gmail.com | Google Scholar

RESEARCH INTERESTS

Urban Economics; Land Markets; Industrial Policy; Local Public Finance; Political Economy of Development; Chinese Economy

EDUCATION

Zhejiang University | School of Public Affairs | Hangzhou, China Sept. 2024 - June 2029 (Expected)
Ph.D. Student in Urban Development and Management; Advisor: Prof. Xuewen Li; Rank: 2nd in program
Minzu University of China | School of Economics | Beijing, China Sept. 2020 - June 2024
B.A. in Economics, Top Talent Innovation Program; GPA: 4.01/5.00; Rank: 1/35
Honors: Beijing Outstanding Graduate; Top Ten Outstanding Students of Minzu University of China; First-Class University Scholarship (x3)

RESEARCH

Working Papers

Bidding for Giants: Anchor Firms, Land Subsidies, and Within-Tenure Fiscal Recapture in China Under preparation
Liurulin Ji, Jiakang Chen, Menghao Lin, Yuxiong Lin, and Xuewen Li

- Construct a parcel-firm matched dataset linking industrial land transactions from the China Land Market Web, SAIC enterprise registration records, and National Tax Survey microdata.
- Develop a spatial neighborhood matching design that compares industrial parcels within a 500-meter radius to mitigate locational heterogeneity in land pricing.
- Document that above-scale firms obtain lower industrial land prices than comparable smaller firms, with larger discounts for politically connected firms such as SOEs and listed companies.
- Show how local governments use discounted industrial land as an industrial-policy instrument and recapture fiscal value through nearby residential land premiums.

The Impact of Overqualification Perception on Work Engagement Among Young Civil Servants in China Minor revision
Submitted to Humanities and Social Sciences Communications

- Study how perceived overqualification shapes work engagement among young civil servants in China, with implications for public-sector personnel management and early-career human-capital allocation.
- Use survey-based empirical analysis to examine heterogeneity in responses across young public employees.

Research in Progress

Urban-Rural Separation, Diffusion of Manufactured Goods, and Engel's Law. Develops a monocentric new economic geography framework linking urban-rural segmentation, market access, and household consumption upgrading.

Large Enterprises or Small Enterprises? Local Governments' Investment Promotion Preferences and Local Economic Growth. Examines how local governments target firms of different sizes in investment promotion and how these choices shape local development outcomes.

Is It Hard for Poor Families to Foster Talented Children? Career Development Differentials Between Urban and Rural College Graduates. Investigates how family background and urban-rural origins affect college graduates' early-career development and mobility.

From Escaping Rural Roots to Returning to Hometowns: Urban-Rural Disparities and Spatial Mobility of Zhejiang University Graduates. Analyzes graduate migration and return-migration patterns under regional inequality and local opportunity structures.

SELECTED RESEARCH PROJECTS

Digitally Empowering Elderly Care Services | National Data Bureau Task Aug. 2025 - Nov. 2025
Main Researcher

AI Development for Benefit, Safety, and Equity | NDRC Emergency Task Jul. 2025 - Sept. 2025
Main Researcher

Integration of Pension Institutions and Financial Services | National Undergraduate Innovation Training Program 2023 - 2024
Project Leader; National Level; Grade: Excellent

- Led fieldwork on pension institutions, including surveys and interviews; proposed policy recommendations for elderly-care finance and service provision.

Work-Family Conflict and Fertility Intentions | National Undergraduate Innovation Training Program 2022 - 2023
Project Leader; National Level; Grade: Excellent

- Analyzed CGSS 2017 data to examine fertility intentions among urban and rural women using theory-of-planned-behavior models.

PRESENTATIONS AND PROFESSIONAL TRAINING

- 2026 - 4th Summer Meeting in Urban Economics, China Urban Economics Association, Wuhan University, China (Presenter).
- 2026 - Fudan University SIRPA International Summer School, School of International Relations and Public Affairs, Fudan University, Shanghai, China.
- 2026 - IPPA International Summer School on Public Policy, The Hang Seng University of Hong Kong, Hong Kong, China (Paper Presentation); workshop instructed by A/Prof Azad Singh Bali, University of Melbourne.
- 2025 - 12th International Workshop on Regional, Urban, and Spatial Economics, Hubei, China (Presenter).
- 2025 - 7th Camphor Tree Regional Economics Forum, Zhejiang, China (Presenter).
- 2024 - 1st Yangtze River Delta Public Management Annual Conference, Zhejiang, China (Presenter).
- 2024 - Symposium on Urban Renewal and Public Policy, Shanghai, China (Presenter).
- 2024 - Fudan BRICS Summer School, Fudan University, Shanghai, China (Full Scholarship; Grade A, Top 10%).

HONORS AND AWARDS

- Outstanding Graduate Student, Zhejiang University, 2025
- Outstanding Graduate Student Leader, Zhejiang University, 2025
- Five-Good Graduate Student, Zhejiang University, 2025
- Beijing Outstanding Graduate, 2024
- Top Ten Outstanding Students of Minzu University of China, 2024 (one of ten recipients university-wide across bachelor's, master's, and Ph.D. students)
- First-Class University Scholarship, Minzu University of China (x3)
- Top Talent Innovation Program Member, School of Economics, Minzu University of China

TECHNICAL SKILLS

Programming and Software: Stata; Python; R; ArcGIS; QGIS; SQL; LaTeX

Empirical Methods: Difference-in-Differences; Event Study; Spatial Econometrics; Spatial Matching; Regression Discontinuity; Synthetic Control; Panel Data Analysis; Machine Learning; Text Analysis; Web Scraping

Research Data: China Land Market Web; National Tax Survey; Industrial Enterprise Database; SAIC Firm Registration Database; CSMAR; WIND; CEIC; Nighttime Lights; POI data; Baidu Maps API

Languages: Mandarin Chinese (native); English (fluent)

ACADEMIC SERVICE AND LEADERSHIP

Executive President, Doctoral Student Union, Zhejiang University	Oct. 2025 - Oct. 2026
Executive President, Graduate and Doctoral Student Union, School of Public Affairs, Zhejiang University	Oct. 2024 - Oct. 2025
Executive President, Student Union, School of Economics, Minzu University of China	May 2022 - May 2023

Last updated: June 2026
